EXPERIENCE

Junior Solution Developer

Engineering Ingegneria Informatica S.p.A. | Oct 2022 - Present

- Part of Healthcare Platform Team
- Worked on report generating tool, improved current solution, wrote new functionalities and bug fixes based on user requests
- Wrote and edited liquibase scripts during decoupling of a large legacy codebase and spent some time testing
- Currently working on backend for a new project for viewing lab scans online
- Experience with: SpringBoot, OracleDB, Maven, SVN, Angular

Junior Software Developer

Raiffeisen Bank | Nov 2021 - Oct 2022

- Part of IT Platform, Architecture and Integration Team
- Developed integration APIs between core and externally specified APIs from Head Office (swagger, gap analysis, code generation)
- Participated in creating a library on top of FeignClient to simplify use of external APIs (intercepting requests, adding request & correlation IDs, contacting KeyCloak for auth)
- Developed backend for an internal app (planning, DB, implementation, use of external services with FeignClient, working closely with FE)
- Took part in API development for agricultural customers app (inherited from Credit Agricole)
- Experience with: SpringBoot, JPA/Hibernate, GitLab, OpenShift, JIRA, Confluence, DMS

Trainee in Digital Team

IKEA | Feb 2021 - Jul 2021

- Part of Digital Team in IKEA South East Europe
- Provided IT support both on-site and remote
- Dealt with asset management, equipment, user onboarding and setup, network and system management.

Data Collection & Labelling Associate

Microsoft | Aug 2020 - Oct 2020

- Part of Office DC&L Team
- Collected and labelled large amount of documents that are later used to train ML/AI algorithms for developing new Word features

EDUCATION

Computer Science

Faculty of Computing (RAF) | 2017 - Present

Economics, Business Management and Statistics

Faculty of Economics | 2016 - 2017

Science and Mathematics Department

IX Belgrade Gymnasium | 2012 - 2016

Projects:

- Java
 - RAF Cloud - Spring & Angular
 - Hospital BE - Spring, JUnit
 - File manipulation local / remote
 - Desktop apps - Java FX & Swing
- Python
 - Online selling platform - Django
 - Machine Learning
 - Threads & Multiprocessing
 - Bioinformatics
 - Big Data
- Kotlin
 - Student Schedule & Note taking
 - Weather
- JavaScript, HTML & CSS
 - FE for Dandelion API - Angular
 - Blog - Node.js, MongoDB
- WordPress
 - Food Ordering website
- C
 - Operating Systems - MIT xv6
 - Computer Graphics - OpenGL

Languages:

- Serbian - Native
- English - Advanced
- German - Beginner

Hobbies:

- Basketball
- Reading

Volunteering:

- Mensa
- AIESEC
